Sir:

Further to an in-person interview conducted on July 25, 2005, Applicant submits the following "Substance of the Interview," summarizing the interview conducted between Stanislaus Aksman and Jessica L. Parezo ("Applicant's representatives"), and Examiner Srivastava and Primary Examiner Ralph Gitomer (the "Examiners"). Applicant appreciates the courtesy of the in-person interview extended to Applicant's representatives. The following issues were discussed at the interview:

I. The Examiners and Applicant's representatives discussed various aspects of the final claim rejections. After discussing the rejection under 35 U.S.C. § 102(b) as allegedly anticipated by U.S. Patent No. 5,569,458, issued to Greenberg (the "Greenberg '458 patent"), the Examiners agreed that the Greenberg '458 patent does not anticipate any of the currently pending claims. With regard to the rejections under §112, the Examiners agreed that the rejections can be overcome by submitting evidence of commercial availability. The Examiners recommended amending the currently-pending composition claims to method claims. Applicant's

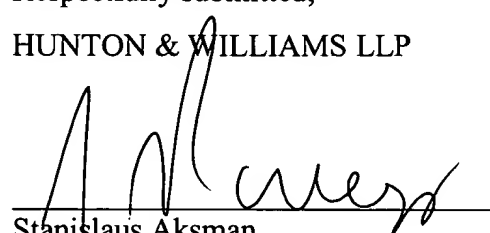

representatives indicated that they will consult with the client regarding amending the claims to method claims.

It is believed that no fee is due in connection with this filing. However, in the event that any fees are necessary, the Commissioner is hereby authorized to charge our Deposit Account No. 50-0206.

Respectfully submitted,
